

CIRCULAR FOR PARENTS

(Introduction of New Learning Initiatives – Mysticpost & Analytical and Computational Thinking)

For Grades II to V

Dear Parent,

We are delighted to share two new initiatives at Royal Global School, designed to enrich our students' learning experience and foster holistic development:

1. **Mysticpost Programme – Newsletter**

The *Mysticpost* programme will serve as a creative newsletter platform for students. It will focus on enhancing reading, writing, and thinking skills, while nurturing creativity, expression, and communication. **An amount of Rs. 315 annually** will be debited from the students' imprest account for this programme.

2. **Analytical and Computational Thinking – Adaptive Tool**

To strengthen problem-solving and logical reasoning, the school is introducing an adaptive tool for the *Analytical and Computational Thinking* subject. This tool will be implemented for students from EY III to Grade VII, offering personalized learning pathways tailored to each child's progress and potential. Further details will be shared in due course. **An amount of Rs. 280 annually** will be debited from the students' imprest account for this programme.

We believe these initiatives will inspire curiosity, enhance critical skills, and provide meaningful opportunities for our students to grow both academically and creatively.

We look forward to your continued support as we work together to provide the best for our children.

Warm regards,

Dr. Arup K. Mukhopadhyay

Director
